¹Rebates

The rebates in the above tables reflect the current phase out for each model. The credit begins to phase out for vehicles once the manufacturer sells a total of 60,000 eligible hybrid and lean-burn vehicles starting from January 1, 2006. IRS will announce when a manufacturer exceeds this sales figure. The following chart illustrates how the phase out would work.

Manufacturer sells 60,000 th hybrid or lean-burn vehicle on February 12, 2006.						Phase out starts beginning of second calendar quarter after 60,000-vehicle mark reached.						Beginning of 4th calendar quarter after 60,000-vehicle mark reached, credit decreases again.						Credit ends beginning sixth calendar quarter.
